

OTTE –
Sales table systems

▪ The perfect stage for
your plants!

For more than 70 years, we have been developing together with our customers solutions for the production and commercial business in the green sector. The OTTE – sales table system offers you not only individual presentation surfaces in many designs and sizes, but also an extensive accessories range with integrated displays and various regulatory elements.

Our entire sales table range is manufactured in our premises from high-quality welded aluminium profiles. In this way we guarantee stable, durable and corrosion-resistant presentation surfaces. OTTE tables do not only have very lightweight structure and ensure easy access to the plants, but they also convince with their aesthetic and discreet design.

Our trained consultants offer a complete service to ensure optimal adaptation to your design requirements and space availability – from the individual planning to qualified project support through to professional installation.

We are also specialised in **individual constructions** made to customer's specifications. For this construction we used a centre strut for stabilisation instead of bracing struts.

Table of dimensions Special constructions		
Length		Width
1.01m	x	1.01m
2.01m	x	1.01m
3.01m	x	1.61m

OTTE – Sales table systems

■ Perfection down to the last detail

For an optimized utilization of your sales area, every sales table is manufactured by us according to your individual requirements. An extremely light aluminium construction as well as various table heights which can be individually adjusted and various finishes, permit an extremely wide range of variants of layout on your action floor - almost in the twinkling of an eye!

Furthermore, you can freely choose your colour design: We do not only offer sales tables in natural aluminium colour but you can select from the complete RAL colour range to perfectly match your company's corporate identity.

OTTE – Sales Table systems

■ A variety of solutions for all cases

Stationary or movable, foldable or even without overhead construction – Sales tables from OTTE allow you to present your range of plants in a professional way, without any additional work.

Our stationary tables are characterized by a particularly robust design, as the tables are provided with cross struts for better stability.

The stationary-foldable design is made of an aluminium frame construction with welded aluminium profiles, which offers the advantage of space-saving storage. To allow more flexibility where frequent modifications are required, both versions are also available in movable design with two braked castors.

All sales tables are height adjustable as standard and depending on the request are either equipped with a waterproof aluminium lining (with water drain and plug) or with a plastic plate/ tray for ebb- and flood irrigation. Of course we also manufacture tables to your individual requirements as well.

OTTE – Table superstructures

▪ Suspension bracket

Suspension brackets allow for the ideal presentation of hanging basket plants.

Thanks to their unique construction they serve as a comfortable and eye-catching display.

Rank suspension bracket

Grid suspension bracket

Sizes on
request

Arch suspension bracket

▪ Tier trays

Tier trays offer additional presentation platforms for your plants or accessories.

They are fixed stably with clamp arches above the sales table to create a two-tiered table.

Set up trays

OTTE – Accessories

▪ Sign holders

Thanks to our variably usable sign holders you can create easily understable guideposts.

The large integrated display provides an unobtrusive, but effective orientation.

The flexible, height adjustable, price sign holder simultaneously gives the customer immediate price information.

▪ Separation arches

With our separation and mounting arches for sales tables you create a clear and cleanly separated storage for a whole range of plant sizes – quite easily, and always individually adjustable! This also prevents your plants from falling over in a light breeze.

▪ Covering arches

Covering arches enable you to screen selected tables from light by using a special foil.

In combination with this foil these arches also support the germination process and growth inhibition.

▪ Aquatic plant table

Consistant quality guaranteed
– special sales table for the professional attitude and presentation of aquatic plants.

Size chart in
the appendix

▪ Suspended trays

Suspended aluminium trays can be easily mounted on the greenhouse structure. By doing so, you can create additional sales and/or presentation platforms. The maximum suspension height is 1.80 m.

Sizes on
request

▪ Plant and work tables

Thanks to the ergonomic table top height of 90 cm our plant and work tables ensure ideal working conditions. The table top is made of either aluminium sheet or stainless steel. This table also disposes of height adjusters for perfect height alignment.

the appendix

▪ Presentation platform

Our presentation platform offers additional space for accessories of all kinds.

Measurements:

platform:	60 x 40 cm
total height:	56 cm
base plate:	60 x 80 cm

OTTE – Water sockets

Water sockets gives you the possibility to flexibly arrange your sales tables without any tangled mass on the floor.

It can be integrated harmoniously in the floor.

Close at hand and easily storable – inside view of a water socket.

OTTE – Valves

OTTE offers various valves according to the customers' requirements.

No matter if you are using a 1-way or 2-way valve, your plants will always get exactly the amount of water they require.

The drain with gate valve is perfectly suitable for a manually controlled irrigation.

1-way-valve

2-way-valve

Gate valve
Incl. grommet joint

Rubber plug

Rubber plugs in different sizes are usable for the water drain of your sales tables which do not dispose of valves or gate valves.

They are available for almost every kind of drilled hole.

Overview sizes Standard – Sales tables

SALES TABLES - stationary construction

		Aluminium- lining		
		Width		
		1.01 m	1.26 m	1.51 m
Length	1.01 m	x	x	x
	1.51 m	x	x	x
	2.01 m	x x	x x	x x
	2.51 m	x x	x x	x x
	3.01 m	x x	x x	x x
	3.51 m	x x	x x	x x

- welded design
- total height = 75 cm (or according to your request)
- the height of the aluminium support is adjustable and removable (thereby stackable)
- stationary construction is equipped with cross struts
- linings/ covering:
 - aluminium lining with water drain, chain and plug (is riveted and clotted/ glued waterproof)
 - plastic plates/ trays are made of 3 mm new material with 1 sump, plastic filter and glue

		Plastic plate/ tray lining		
		Width		
		1.01 m	1.21 m	1.51 m
Length	1.01 m	x	x	x
	1.51 m	x	x	x
	2.01 m	x x	x x	x x
	2.51 m	x x	x x	x x
	3.01 m	x x	x x	x x
	3.51 m	x x	x x	x x

The plastic plates/ trays will be delivered in several parts and must be glued by customer.

Recommendation

- 1.01 m width Recommendable, if the table can be reached only from one side
- 1.21 / 1.26 m Recommendable for narrow ways and tight space
- 1.51 m width Recommendable, if wide ways are possible

x = sales table version not foldable
 x x = sales tables are foldable
For technical reasons, tables under 2.01 m length are not foldable.

All other sizes on request!

SALES TABLES - movable construction

		Aluminium lining		
		Width		
		1.01 m	1.26 m	1.51 m
Length	1.01 m	x	x	x
	1.51 m	x	x	x
	2.01 m	x x	x x	x x
	2.51 m	x x	x x	x x
	3.01 m	x x	x x	x x
	3.51 m	x x	x x	x x

- welded design
- total height = 75 cm (or according to your request)
- the height of the aluminium support is adjustable
- movable design with 4 wheels (2 wheels are fixable)
- linings/ covering:
 - aluminium lining with water drain, chain and plug (is riveted and clotted/ glued waterproof)
 - plastic plates/ trays are made of 3 mm new material with 1 sump, plastic filter and glue

Recommendation

- 1.01 m width Recommendable, if the table can be reached only from one side
- 1.21 / 1.26 m Recommendable for narrow ways and tight space
- 1.51 m width Recommendable, if wide ways are possible

x = sales table version not foldable
 x x = sales tables are foldable
For technical reasons, tables under 2.01 m length are not foldable.

All other sizes on request!

		Plastic plate/ tray lining
